# Your World means the world to us

Which is why we provide you with  
expert skin care, cleaning and hygiene  
solutions to match your industry needs.

USERS ARE AT THE HEART OF EVERYTHING WE DO.

We deliver cleaning and hygiene solutions for our customers that are tailored for their needs and tested to higher standards, proven to be safer and liked by users.

USE LESS. RECYCLE MORE. BE RESPONSIBLE.

These are the rules we live by. We are committed to help our customers recycle more and reduce waste, through applying green chemistry and responsible packaging.

BEING TRANSPARENT ABOUT OUR PRODUCTS IS A MATTER OF PRINCIPLE.

Knowing what's inside our products and how they are tested enables customers to make the best choices.

## Skin protection

### PRE-WORK SKIN PROTECTION CREAMS

SKIN PROTECTION

Where skin exposure cannot be avoided through safe working practices or appropriate Personal Protective Equipment, it is recommended to use an appropriate skin protection cream to help keep skin healthy. They help by forming a protective layer on the skin.

Our range has been developed and tested for professional use. Each cream is formulated to provide a barrier for specific workplace contaminants, substances and conditions.

As well as providing protection, protect creams can also make hands easier to clean to allow faster cleaning and use of milder hand cleaners.

When used in our dispenser system, measured dose size helps prevent over-use, ensuring that cream absorbs quickly and easily to encourage compliance.

The range is simple to understand and it's easy to choose the right product based on the worker needs below:

## SKIN CLEANING

THE RIGHT SKIN CLEANSER FOR ALL TYPES OF DIRT

SKIN CLEANSING

Choosing the right hand cleanser for the workplace is crucial for ensuring effective hand hygiene and keeping hands healthy.

The optimal hand cleanser should be chosen based on the degree of contamination (from light to heavy). Some workplaces require special hand cleaners due to special contamination.

The indicated cleaning level gives an indication of the cleaning power of each product:

1

Soap washroom

2

Light

3

Medium-heavy - Heavy

4

Super-heavy

5

Ultra-heavy

The SC Johnson Professional® range covers all workplaces and public facilities:

## FOAM SOAPS

### HIGH-QUALITY FOAM SOAPS

Our updated range of foam soaps for washrooms has been developed in collaboration with cleaning professionals, fragrance experts and users.

Whether for washrooms in businesses, offices, shops, restaurants, schools or hotels, the range offers the quality customers want, with features that redefine the experience of washing hands with foam soap.

Just one pump action of our foam soaps optimally cleans and cares for your hands, and is therefore considerably more economical and durable than traditional lotion soaps.

# SKIN CLEANING Industrial

PRODUCTS FOR THE REMOVAL OF  
VARIOUS CONTAMINANTS

Our range of hand cleaners for the workplace is effective, easy to understand and meets all requirements. The range has been developed so that the right product can be chosen for each cleaning need. This helps to avoid the use of products that are unnecessarily aggressive to the skin.

According to the principle: As strong as necessary and as mild as possible.

The products are specially formulated and also tested by independent institutes to meet the highest requirements. The different pack sizes offer the right format for every application.

When used with our dispensing system, the fixed dose dose provides the right amount for effective hand washing to minimise waste and costs and prevent overuse, which can lead to dry skin.

The range is easy to understand and it is easy to choose the right product according to the needs of the workers listed below.

FOR THE  
REMOVAL OF  
CONTAMINATION

|                                                                                                    |                                                                                                    |                                                                                                    |                                                                                                                                                          |                                                                                                                  |

Solopol® GFX™, OxyBAC® EXTRA, OxyBAC® and matching dispensers have been certified by HACCP International as food safe hand hygiene products suitable for use in establishments operating in accordance with a HACCP-based food safety programme in the SSZ (Splash or Spill Zone) food zone classification. This means that the products are suitable for use in food handling areas such as kitchens, production and processing areas, but not for direct contact with food or food contact items. HACCP International assessment and certification is limited to food safety issues or the implementation of a HACCP-based food safety programme. Although HACCP International has exercised due diligence in evaluating the products or services described herein, HACCP International cannot guarantee that every food safety risk has been identified in every application. No warranty is offered or implied by the issuance of this statement.

## HAND HYGIENE

EFFECTIVE AND SKIN-FRIENDLY FOAM OR GEL SOLUTIONS.

HAND HYGIENE

The range provides through a choice of products that are highly effective and preferred by users, providing a complete solution for hand sanitisation.

In line with World Health Organisation guidance we recommend that hand sanitisers for killing bacteria and viruses should be alcohol based. However, we also provide an effective alcohol-free format for places where alcohol may not be preferred. InstantFOAM™ COMPLETE & InstantGEL™ COMPLETE. Our 80% ethanol-based foam and gel formulas can be used at the targeted hygiene point-of-need anywhere in a facility and are proven to kill 99.999% of bacteria and 99.99% of viruses.

The range is easy to understand and it is easy to choose the right product according to the needs of the applications listed below.

|                                                     |                                                   |                                                      |                                                                |

This product meets the criteria of the European Centre for Allergy Research Foundation (ECARF) for good compatibility with sensitive skin.  
[www.ecarf-siegel.org/about-the-seal](http://www.ecarf-siegel.org/about-the-seal)

Hydrogen peroxide (H<sub>2</sub>O<sub>2</sub>) is the simplest form of an antimicrobial antimicrobial oxidiser that consists only of hydrogen and oxygen. Its powerful oxidising action has long been known to kill germs without harming users or the environment.

Solopol® GFX™, OxyBAC® EXTRA, OxyBAC and matching dispensers have been certified by HACCP International as food safe hand hygiene products suitable for use in establishments operating in accordance with a HACCP-based food safety programme in the SSZ (Splash or Spill Zone) food zone classification. This means that the products are suitable for use in food handling areas such as kitchens, production and processing areas, but not for direct contact with food or food contact items. HACCP International assessment and certification is limited to food safety issues or the implementation of a HACCP-based food safety programme. Although HACCP International has exercised due diligence in evaluating the products or services described herein, HACCP International cannot guarantee that every food safety risk has been identified in every application. No warranty is offered or implied by the issuance of this statement.

Silicone-free

Unscented

Skin hypoallergenic

## RESTORE

### FOR USE AFTER WORK

RESTORE

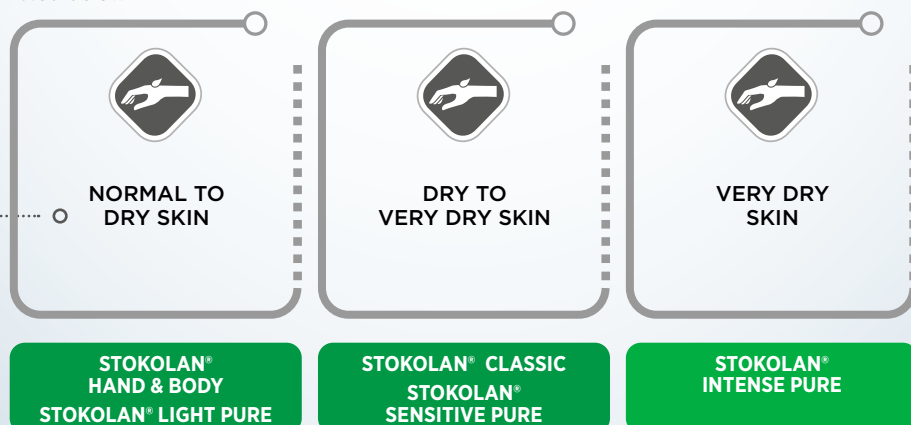

Skin care creams provide immediate relief for tight, dry skin. They increase the moisture content of the skin - which is lost at work.

With regular use, skincare creams help prevent dehydration and keep the skin in good condition, strong and healthy. Healthy skin reduces the risk of infections and the introduction of pollutants and substances into the workplace.

When used with our dispensing system, the fixed dosage helps prevent overuse and ensures that the cream is absorbed quickly and easily.

The range is easy to understand and it is easy to choose the right product according to the needs of the workers listed below.

CARE FOR

|                            |                          | Moisturising | Skin Care | Skin regenerating | For hands and face, as well as for body care | Especially for full body care | Normal skin condition | Dry and stressed skin | Dry, stressed & sensitive skin | Very dry and stressed skin | Suitable for allergy sufferers and skin with a tendency to eczema | Unscented | Suitable for the food industry | Dye-free | Silicone-free | Quickly absorbed | Compatible with latex and nitrile gloves | ECARF certified |

## Dispenser benefits

### EASY TO LOCK

with lockable covers - prevents contamination or theft

### EASY INSTALLATION

at any location. Wall mounting with self-adhesive pads or screws

### EASILY REFILLABLE

Change cartridges in seconds, saving time and costs

### HYGIENE CLOSED CARTRIDGE

to prevent product contamination, such as with refillable dispensers

### EASY TO USE

with large, intuitive buttons

### Biocote silver ion technology:

**Effective:** Reduces bacteria, mould and fungi on the surface of all SC Johnson Professional® Proline hand dispensing buttons in as little as 2 hours and achieves a 99.99% reduction over a 24 hour period \*\*.

**Permanent:** The Biocote® antimicrobial protection remains throughout the life of the dispenser buttons, i.e. it does not wear off and wash off. Biocote® technology is not a substitute for good hand hygiene practices.

### EASY TO MAINTAIN

No fouling, no dripping and no clogging of the pumps

The Biocote® antimicrobial protection remains throughout the life of the dispenser buttons, i.e. it does not wear off and wash off. Biocote® technology is not a substitute for good hand hygiene practices.

## SWARFEGA®

CLEAN WORK! - POWERFUL CLEANING PRODUCTS FOR TOUGH TASKS

In 1947, Swarfega® was born. It was the first hand cleaner of its kind in the world. The name comes from 'swarf', the old description for oil and fat in Derbyshire in the UK and 'ega', as in 'eager to clean'. The current Swarfega® range consists of specialised cleaning products for hands, vehicles and surfaces. All Swarfega® products are carefully formulated to ensure their intended effectiveness and to ensure that they are liked and preferred.

Swarfega® offers a solution to almost every cleaning problem in industry. Constituents such as oils, lubricants, tar, soot, paints, lacquers and adhesives are present in many workplaces and all have the potential to affect the skin and cause skin irritation. Hands are indispensable tools in an industrial working environment. Give them the attention they deserve by cleaning them appropriately.

Regular cleaning of the hands with a Swarfega® hand cleanser prevents the build-up of and reduces the contact time with the contamination. All products are dermatologically tested and well tolerated by the skin.

### SWARFEGA® JIZER BIO

#### SOLVENT PARTS DEGREASER

- Removes oils, greases and general dirt and grime from a wide range of metal, plastic and painted surfaces
- Powerful, concentrated surfactant blend can be used neat for heavy duty degreasing, or diluted for general cleaning
- Solvent-free formula is low odour and no fumes making it more pleasant and safer to use in confined spaces

| Code   | Format         | Quantity/carton |
|--------|----------------|-----------------|
| JIB60K | 5 Litre Bottle | 4               |
| JIB76R | 25 Litre Drum  | 1               |

### SWARFEGA® JIZER

#### SOLVENT PARTS DEGREASER

- Quickly dissolve and remove oil, fat, tar, bitumen, wet paint and other heavy soiling from engines, parts etc.
- Also suitable for cleaning paint brushes
- With water rinseable
- For both manual and machine use, for professional use
- With a rotating middle

| Code   | Format   | Quantity/carton |
|--------|----------|-----------------|
| SJZ5L  | 5-l-Can  | 4               |
| SJZ25L | 25-l-Can | 1               |

### SWARFEGA® DUCK OIL

#### MULTI-PURPOSE SERVICE SPRAY

- Displaces water and helps 'damp-start' motors, penetrates and releases seized components and lightly lubricates moving parts
- Exceptionally low surface tension means it can easily penetrate, lubricate and protect with no need to dismantle machinery
- Non-conductive for use on electrical components and silicone-free for compatibility with paintshops

| Code     | Format        | Quantity/carton |
|----------|---------------|-----------------|
| SDO500ML | 500ml Aerosol | 12              |
| SDO5L    | 5 Litre Tin   | 4               |
| SDO25L   | 25 Litre Drum | 1               |

### SWARFEGA® MARINOL

#### CONCENTRATED, MARINE DEGREASER AND HEAVY DUTY CLEANER

- Can be used as supplied, or pre-diluted for maximum efficiency to remove oils, greases, fats and algae
- Combines blend of anionic and nonionic surfactants for good detergency and free rinsing with salt or fresh water
- Non-flammable formula is suitable for use and storage in any marine situation

| Code   | Format        | Quantity/carton |
|--------|---------------|-----------------|
| MMR76F | 25 Litre Drum | 1               |

**Swarfega**

**SWARFEGA® SUPER**  
**HEAVY DUTY CONCENTRATED VEHICLE TRAFFIC FILM REMOVER**

- Heavy duty degreaser and TFR for use on all plant and commercial vehicles, as well as engines, chassis and components.
- For heavy soilings use neat through pressure cleaning machinery.
- For lighter soilings pre-dilute first - 25 litres of Powerwash Super makes 200 litres of ready to use product.

| Code   | Format   | Quantity/carton |
|--------|----------|-----------------|
| PSU25L | 25L Drum | 1               |

**SWARFEGA® POWERWASH FORMULA TFR**  
**MULTI-PURPOSE, READY-TO-USE VEHICLE TRAFFIC FILM REMOVER**

- Use as supplied to remove road film, oils and greases
- Ready-to-use alkaline formula rapidly removes all types of general road grime and contains water softeners to help prevent scaling in cleaning machinery
- The free rinsing formula gives fast, effective rinse-off helping to leave a non-smear, streak-free finish

| Code   | Format        | Quantity/carton |
|--------|---------------|-----------------|
| PFO25L | 25 Litre Drum | 1               |

**Swarfega**

**SWARFEGA® POWERWASH ULTRA CONCENTRATE TFR**  
**ULTRA CONCENTRATED VEHICLE TRAFFIC FILM REMOVER**

- Pre-dilute the 2.5 litre concentrate 1:9 with water to make 25 litres of ready-to-use TFR for removal of road film, oils and greases
- Ultra concentrated alkaline formula is designed specifically for pre-diluting on-site into a refillable container to save on transport, storage and packaging waste. When diluted, removes all types of general road grime
- Contains water softeners to help prevent machine scaling
